Form 990 is available for public inspection and, for some people, serves as the primary or sole source of information about a particular organization. How the public perceives an organization in such cases may be determined by the information presented on its return. Therefore, please make sure the return is complete and accurate and fully describes, in Part III, the organization's programs and accomplishments.

Catholic Health System Community Service Report For The Year 2004

515 Abbott Road, Suite 508 Buffalo, New York 14220 PH: (716) 828-2700 FAX: (716) 828-2703

Dear Community Leader,

We are pleased to present to the Western New York community the Catholic Health System Community Service Report for the year 2004.

This report demonstrates the commitment by the Catholic Health System ministry in our community to continue a legacy of providing area residents with access to a wide range of high quality, comprehensive services that make a difference in the lives of Western New Yorkers, each and every day

In 2004, the Catholic Health System provided \$23.4 million in services to the community for which our facilities receive no payment from insurance companies or individuals, or payments that were insufficient to cover operating costs. These services help to enhance the health status, access to health care and social welfare of our community. This combination of quality care enriched by highly spiritual values and a deep reverence for life is something the public has come to expect from Catholic health providers for nearly 160 years.

For Catholic health providers, delivering uncompensated community services is more than a social obligation. It is an intrinsic part of our mission as a Gospel inspired ministry – to preserve the health of all people, protecting those who are poor and vulnerable, and improving the quality of life in Western New York.

In addition, the Catholic Health System provides non-reimbursed medical education in connection with colleges and universities from across the region, helping to train future health care professionals. CHS also continues to build upon its proud history of seeking innovative ways to improve the delivery of health care through numerous uncompensated health promotion and disease prevention programs that are designed to enhance the well being of the community-at-large. Specific programs and services in this report are in direct response to community needs.

If after reading this plan you have any comments or suggestions on how the Catholic Health System can better meet the needs of the community, please write to us in care of:

Catholic Health System
Department of Public Relations & Government Affairs
c/o Sisters of Charity Hospital
2157 Main Street
Buffalo, NY 14214

If you would like additional copies of this report, please call (716) 862-1700. The report is also available on the Catholic Health System web site at www.chsbuffalo.org.

Sincerely,

Joseph D. McDonald President & CEO

leagh of Myfalle

Catholic Health System Mission, Vision & Values

OUR MISSION

Committed to a common mission, Western New York's Catholic health providers continue the healing ministry of Jesus. Seeking to improve the health of individuals and communities, we provide high quality service that is holistic, compassionate and respectful of human dignity. Central to this endeavor is the service of those who are poor and disadvantaged.

OUR VISION

- To be a leading health care system progressively transforming care delivery to enhance the quality of life in Western New York.
- We will do this in partnership with physicians, associates and community providers who share our faith-based values.

OUR VALUES

Reverence for the dignity of each person

- Respect for the whole person
- Fair and just treatment of individuals
- Non-judgmental behavior

Compassion

- Empathy
- Responsiveness to need
- Sensitivity

Justice for all, especially those who are poor and disadvantaged

- Unconditional acceptance of each person
- Serving as advocates for the most vulnerable
- Collaborating with others to empower individuals

Excellence

- Personal and professional integrity
- Promoting and facilitating quality health care services
- Commitment to embrace new technology

Performance in Providing Charity Care

SOCIAL ACCOUNTABILITY NEEDS ASSESSMENT

One of the fundamental reasons for the creation of the Catholic Health System and its member organizations was to ensure the continued viability of health care institutions to meet the varied needs of the communities they serve in keeping with the mission, vision and values of our religious sponsors.

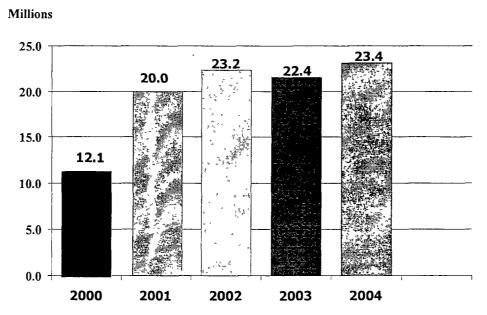

BENEFITS TO THOSE WHO ARE POOR AND THE BROADER COMMUNITY

Integral in this effort is caring for the needs of those who are poor. The services provided by Catholic Health System organizations are developed and funded in response to identified community needs, and reflect our emphasis on caring for the underserved. The Catholic Health System also strives to collaborate with other organizations to expedite and maximize the provision of services to our neighboring communities.

To effectively present these services in a meaningful fashion, a reporting and accountability process was developed that quantifies the cost of these services. This process also provides a basis of accountability to communities for the way in which resources are used to meet identified needs.

In 2004, the Catholic Health System's hospitals, long term care facilities and home care programs contributed \$23.4 million in community service to Western New York. This substantial financial commitment to the community, as outlined in the Social Accountability Financial Statement attachment, represents more than four percent of the Catholic Health System's total net operating revenues of nearly \$545 million. We provided \$12 million in community service at our acute facilities including \$3.8 million in traditional charity care and care for the poor expenses. In addition, \$8.2 million was provided in benefits to the broader community, which includes non-billed services and provided services where we were paid below our costs. An additional \$10.9 million in charity care and benefits to the community was provided through our long term care facilities and home care programs.

Catholic Health System Community Service Contribution History

Catholic Health System Healthcare Assistance Program

Inspired by our tradition of caring for the poor, and together with the Sisters of Mercy, Regional Community of Buffalo, the Franciscan Sisters of St. Joseph, the Daughters of Charity, and the Diocese of Buffalo, the Catholic Health System will explicitly identify and pursue active services to meet the special needs of those who are poor.

Service to those who are poor is central to our mission. The Catholic Health System (CHS) desires to strengthen its commitment to this principle through well managed, integrated planning and budgeting processes as the framework for this policy. To ensure these objectives are met, the Catholic Health System has established its Healthcare Assistance Program (HAP) and Care of the Poor, Community Benefit, and Advocacy Plan.

In 2004 the Catholic Health System HAP program approved 382 requests for assistance under the program and provided \$2.2 million in discounted health care for the individuals assisted.

Confidentiality of information and individual dignity will be maintained for all those requesting consideration for healthcare assistance. A plain language consumer guide to the Catholic Health System Healthcare Assistance Program is available at all CHS hospital admissions offices and patient service locations or by visiting the CHS website at www.chsbuffalo.org. Complete Policy – See Attachment C

Catholic Health System Overview

OUR HISTORY

Formed in 1998 under four religious sponsors, the Catholic Health System provides health care to hundreds of thousands of Western New Yorkers across a network of four acute care hospitals, eleven primary care centers, nine diagnostic and treatment centers, one ambulatory surgery center, eight long term care facilities, two adult homes, three home care agencies, counseling services, social service and behavioral health programs.

One of the largest providers of health care in Western New York, the Catholic Health System's 7,800 associates and 1,200 physicians are part of a healing ministry dating back to 1848 when six Sisters of Charity came to Buffalo to open the city's first hospital. Among others, its facilities are known for excellence in such areas as women's services, cancer services, cardiology, and rehabilitative services and are well known for personal and compassionate care. The Catholic Health System is the largest provider of maternity services, rehab services, and care to the elderly in Erie County.

OUR SPONSORS

Instrumental in our efforts is our emphasis on Catholic sponsorship and guiding principles that emphasize care for the whole person – body, mind and spirit. Steering us along this noble path are our four religious sponsors: the Diocese of Buffalo, the Daughters of Charity of St. Vincent de Paul, the Franciscan Sisters of St. Joseph and the Sisters of Mercy, Regional Community of Buffalo. While focusing on the healing ministry of Jesus, each sponsoring group brings its own individual strengths, ensuring that Catholic values-based health care will grow and prosper in Western New York.

Medical Excellence with a tradition of caring...

Throughout the country, and especially in New York State, health care continues to undergo tremendous change – not only in the way care is delivered – but also in the way it is financed. The emergence of the Catholic Health System is a living testament to these facts. The Catholic Health System brings together the strengths and talents of 7,800 associates and 1,200 physicians under one health care ministry stretching across Western New York.

The Catholic Health System is a full-service health care delivery system dedicated to providing superior medical care to the community at each stage of life from conception and birth, through childhood, adolescence and adulthood, to the special needs associated with the elderly. The primary service area for the Catholic Health System is Erie County. Kenmore Mercy Hospital, Sisters of Charity Hospital and St. Joseph Hospital provide care for residents in Buffalo and its eastern and northern suburbs while Mercy Hospital continues its historic tradition of caring for patients throughout South Buffalo, Lackawanna and the Southtowns.

Catholic Health System Facilities and Services

Coming together as a unified system presented unique challenges and opportunities for our hospitals, long-term care facilities, diagnostic and treatment sites, primary care centers and home health care agencies. Working together, these entities form a comprehensive network that provides superior care at each stage of life across the continuum.

KENMORE MERCY HOSPITAL

2950 Elmwood Avenue • Kenmore NY 14217

(716) 447-6100

Kenmore Mercy Hospital has served Buffalo's northern suburbs since 1951. In addition to 24-hour Emergency Services, the hospital also offers a number of additional services through the Catholic Health System including: residential health care through the 160-bed McAuley Residence; primary care services at several community locations; rehabilitation and sports medicine through the AthletiCare program. In 2004, the hospital opened its Knee and Hip Center, a center of excellence in orthopedic care.

MERCY HOSPITAL OF BUFFALO 565 Abbott Road • Buffalo, New York 14220 (716) 826-7000

Established in 1904, Mercy Hospital is now the center of acute care in South Buffalo and its surrounding communities. The hospital provides 24-hour emergency care with more than 30,000 visits annually, the busiest in the region. Comprehensive medical and surgical specialties at Mercy Hospital include cardiology, orthopedics, neurosurgery, gynecology, urology and general surgical services. Mercy is also a medical teaching hospital affiliated with the University of Buffalo School of Medicine – training more than 100 medical students each year. A recently renovated maternity department includes a Level II intensive care nursery. In 2002, Mercy Hospital opened the region's newest advanced cardiac program, offering open-heart surgery and interventional cardiac catheterization. The operating theater was expanded in 2004 and includes the addition of a dedicated endosuite. The addition of state-of-the-art robotic surgery and 64-slice CT technologies in 2005, coupled with plans for a new Emergency Department in 2006, should assure that status for the foreseeable future.

The Mercy Ambulatory Care Center, a freestanding emergency department, includes an array of diagnostic services. The Western New York Medical Park, East Aurora Diagnostic and Treatment center and Brierwood sites, and 6 primary care centers round out the additional outpatient venues throughout Mercy's primary service area.

ST. JOSEPH HOSPITAL

2605 Harlem Road • Cheektowaga, New York 14225 (716) 891-2400

St. Joseph Hospital has served Buffalo and its eastern suburbs since 1960. The hospital offers a complete range of services including 24-hour emergency care, cardiac care, inpatient and ambulatory surgery, physical therapy, radiology and laboratory services. Specialized services include digestive health, sleep disorders, and primary care services at several community locations. In 2005, St. Joseph Hospital opened a new \$10 million emergency department, providing the community with an ultra modern, technologically advanced, patient centered emergency department experience. This facility will serve as a model for planning emergency care at other CHS facilities in the years ahead.

SISTERS OF CHARITY HOSPITAL

2157 Main Street • Buffalo, New York 14214

(716) 862-1000

Buffalo's first hospital, established in 1848, Sisters Hospital is a medical teaching hospital offering medical and surgical inpatient care, OB/GYN services including a Level III intensive care nursery and a

labor and delivery unit, ICU/CCU, Specialty Center for Women and Breast Care Center, certified as a community cancer center. Sisters Hospital also offers primary care services at several community locations. The hospital also offers several medical teaching programs including Medical Residencies in Osteopathic Medicine, General Medicine, Podiatry, OB/GYN, Anesthesia, and Physician Assistant Rotation in conjunction with Daemen College.

Primary Care Services

Catholic Health System (CHS) Primary Care Centers provide critically needed care and services to a diverse Community-based population in Western New York. Last year, the Centers realized over 134,000 at their various locations, the vast majority of which are located in urban, inner city areas. Almost 47% of the total population of patients receiving care, are a part of the New York State Medicaid Program or Medicaid Managed Care and about 4% are uninsured.

As Hospital Extension Clinics, each of the Primary Care Centers receives financial support through its sponsoring Hospital facility. Each of the Centers also assists patients through outreach activities, connecting them to specific programs, agencies and services available under the CHS umbrella or within the Community-at-large. In providing this support, CHS has made a conscious decision to articulate its Mission directly to those in need: the poor and underserved.

Near East Side Health Care Task Force (NESHCTF) - The Catholic Health System is a member of the Near East Side Health Care Task Force, sponsored by Buffalo's Black Leadership Forum. NESHCTF is an organization of Buffalo health providers and Buffalo inner city community groups. The NESHCTF mission is to improve the health status of underserved neighborhoods in Buffalo through improved primary care access, better Emergency Department utilization and health education. The task force is currently developing a collaborative action plan to reduce reliance in emergency departments and improved primary care access.

In 2004, CHS was a major participant in Take A Loved One To The Doctor Week in September. This collaborative effort of NESHCTF, Catholic Health System, Kaleida Health, ECMC, other area providers, insurers and community organizations, delivered free physician office visits to more than 400 individuals. The program has gained national recognition as a model for collaborative initiatives to better serve inner city populations.

The CHAMP Program - The CHAMP Program ("Choosing Healthy Activities through Mentoring and Play") is a volunteer, collaborative effort which has been initiated amongst the Catholic Health System (Primary Care Division and Community Health Division), the Niagara University Learn and Serve Ministry and Catholic Central School. The program addresses health needs identified in the middle school students who attend Catholic Central. The program elements align with the requirements of the New York State Education Department's Health Curriculum for Middle Schools

The Parish Initiative -This program is aimed at informing Pastors in the Catholic Diocese of Buffalo of the options available for their parishioners for health insurance through FidelisCare New York and primary care services through the Catholic Health System. Meetings are scheduled with Pastors with representatives from FidelisCare and CHS Primary Care Centers. Pastors receive information regarding primary care services through Centers proximal to their parishes, contact information to obtain health care and health insurance for their parishioners who may be in need, and a folder filled with information regarding ancillary health care services available through both Fidelis and CHS. They also receive camera-ready art to include in their weekly Church bulletins and Church bulletin boards to inform their parishioners of available services. Six parishes have been visited locally since January with other Parish meetings scheduled in the next month.

The Uninsured Initiative. This program is a collaborative effort between Catholic Health System and FidelisCare New York to more aggressively enroll uninsured individuals in order to provide them with health insurance and health care services. When a potential new patient calls one of the CHS Primary Care Centers for an appointment and has no insurance, the appointment is readily scheduled. Upon arrival for the visit, the patient receives a form to complete which inquires whether the patient would like a home visit from FidelisCare to assist them with enrolling in a health insurance option. Once the form is completed, it is faxed by CHS PCC personnel to FidelisCare, where a representative contacts the patient and sets up an appointment for a home visit. Since FidelisCare is a facilitated enroller, Fidelis representatives discuss all local HMO health insurance options, government options such as Family Health Plus and Child Health Plus as well as Medicaid with patients. Subsequently, they assist the patient and the patient's family with enrolling in the plan of their choice all in the convenience of their own homes. Thus far, the effort has resulted in the enrollment of almost 600 individuals in FidelisCare, with a number of enrollments to other local health insurers as well.

Women and Children's Services

Breast Screening Services –As one of the area's leading providers of breast care service, the Breast Center at Sisters Hospital offers comprehensive care to women including easily accessible and state-of-the-art mammography and sonography breast screening services. On-site breast surgical oncologists provide a full-range of surgical options. Education, counseling, breast reconstruction and support groups for breast cancer survivors round out the complement of services. Kenmore Mercy and its physicians offer a free Breast Cancer Detection Program, professional breast exams and instruction in breast self-examination to women without health insurance or financial resources – with the hope that these women will continue to seek preventative health care practices.

Specialty Center for Women - Located on the third floor at Sisters Hospital, the Specialty Center for Women provides a variety of specialized health care services to meet the unique needs of women throughout the local community. The Center is staffed with a highly skilled team of physicians who are recognized locally and nationally as leaders in their fields. The center also conducts screening programs for women without insurance.

Along with a team of dedicated, caring nurses and other health professionals, the specialty center provides a unique atmosphere where all women regardless of their economic or social status, are treated with respect and dignity. Accepting referrals from the Sisters Family Health Center and other CHS primary care centers, the Specialty Center provides a continuity of care for women who may not otherwise have access to these needed services.

Healthy Births - The Catholic Health System leads the region in births through Sisters of Charity Hospital and Mercy Hospital of Buffalo. CHS offers an extensive array of services and ongoing educational programs aimed at helping mothers and fathers have healthy babies and build strong families. The past year, Sisters Hospital and Mercy Hospital helped more than 800 parents and parents-to-be in Western New York prepare for childbirth, learn prenatal care, breast-feeding, infant care and more. Sisters Hospital and Mercy Hospital staff delivered nearly 6,000 babies in 2004, and the Sisters Hospital Neonatal Intensive Care Unit helped nearly 600 premature or sick babies get the specialized medical attention they needed.

PCAP - Sisters Family Health Center sees a high number of OB/GYN patients. Through the Prenatal Care and Assistance Program (PCAP), women who would otherwise go without care receive prenatal care and counseling. The program serves 750 women annually; half of these women do not carry health insurance. Approximately 70% of the women served by this program are African American. Women in the PCAP program also receive free prenatal classes at Sisters Hospital free of charge.

Natural Family Planning – Offered at CHS facilities and charging a sliding fee scale based on income.

Pregnancy Testing and HIV Counseling & Testing - In addition, the Sisters Family Health Center (SFHC) offers a free pregnancy-testing program through its women's services division to anyone in the community interested in learning their pregnancy status. Services are available regardless of the ability to pay. HIV pretest counseling, HIV testing and post test counseling are available. All services are provided confidentially by registered nurses who have additional training in HIV counseling. Referrals are made, when appropriate, to SFHC or Lovejoy/ St. Vincent Health Center. Clients needing crisis intervention or other services are introduced to appropriate behavioral health personnel, social services, pastoral care, Erie County Health Department or ECMC.

Project Truth - Administered through Catholic Charities in conjunction with CHS, Project Truth is a multi-faceted abstinence until marriage education initiative built on a foundation of character education. The program is designed for all adolescents with the goal of reducing the proportion of young people engaging in premarital sex, reducing the rate of teen pregnancies and other behavioral issues including drug, alcohol and tobacco use.

Safe Passage Program – A hospital based domestic violence, Safe Passage maintained strong community partnerships with Haven House, Crisis Services, Monsignor Carr Institute and Erie County Coalition Against Family Violence. Services included medical, case management, advocacy and mental health. The Safe Passage House, operated by Sisters of Charity Hospital, is a two family transitional housing program for women and their children who are victims of domestic violence. Due to funding issues this service was discontinued at the end of 2004.

Ken-Ton Hopegivers Task Force – With the purpose to address issues of domestic violence, the program works with Catholic Charities and Kenmore and Tonawanda Police Departments.

Social Services and WIC - In an arrangement with the Erie County Department of Health, Sisters Hospital provides a community office for WIC free of charge on the hospital campus. This office services Sisters Hospital, the Family Health Center and the surrounding community. In exchange the Erie County Department of Health provides a lactation consultant for new mothers at Sisters of Charity Hospital two-days per week.

Perinatal Bereavement Program – Sisters Hospital offers an active Perinatal bereavement program to help couples cope with the loss of a child at any stage of pregnancy. A dedicated perinatal bereavement

nurse meets with couples experiencing such loss and provides emotional and spiritual support, along with community resources and community support.

Continuing Care Services

Our Lady of Victory Renaissance Corporation - Our Lady of Victory Hospital has served Lackawanna, Hamburg, West Seneca and other Western New York communities since 1919. In its role in conjunction with Mercy Hospital, Our Lady of Victory Renaissance Corporation is undergoing a transformation with plans for a new senior living community under development for the hospital's current campus. Future plans for the campus include 74 units of low and moderate-income senior housing, an 84-bed skilled nursing facility, a Program of All-inclusive Care for the Elderly (PACE) and synergistic retail and medical services. Construction on this new senior campus is to begin in 2005. For more information on the future development of this project, please contact Aimee Gomlak Brace at 716-604-1802.

Laboratory Services - CHS Laboratory Services take pride in consistently providing accurate and meaningful test data through the use of precision instrumentation, extensive quality assurance procedures and stare-of-the-art technology and a highly skilled and experienced staff. Key components of the highly integrated laboratory services network include a centralized laboratory with advanced instrumentation, including unique robotic instrumentation; 24 conveniently located community patient services centers; hospital based laboratory sites for urgent test results; Personalized pick-up and delivery services; and centralized administrative functions.

Community Health/Outreach and Education Activities

As part of the Catholic Health System mission, its facilities participate and give back to the communities they serve. Some of those initiatives are as follows:

Screening Programs

The Catholic Health System offers a wide range of screening programs free of charge to the public including:

- Prostate Cancer
- Oral Cancer
- Vascular Disease
- Thyroid Disease

- Diabetes
- Cholesterol
- Glucose Testing
- Blood Pressure

AthletiCare – Through its AthletiCare sports outreach program the Catholic Health System provides training programs to 18 area high schools and colleges. The program also provides medical and athletic training coverage for charity events such as the Gus Macker Basketball Tournament, Girls Athletic League and Frontier Falcons Services.

CHS Website – In 2001, the Catholic Health System launched a community oriented Internet site, www.chsbuffalo.org. This site offers the community complete information on the services offered across the system. Included in this site is a comprehensive section offering up-to-date resource information on health and wellness issues for the consumer.

Diabetes Education and Management – Diabetes is a primary health concern in all Americans, but incidence is even higher in African-American Hispanic and Native Americans. In June 2003 the

Catholic Health System was awarded the American Diabetes Association National Recognition for its Diabetes Self-Management Education Classes. The Catholic Health System is a member of the WNY Coalition for Diabetes Prevention whose goal is to promote diabetes awareness and provide outreach materials to local communities, especially minority or under-served populations. Sisters Hospital, along with the other sites, is actively involved in this provision of services and supplies. Approximately 50% of all clients serviced by the Diabetes Education Service at Sisters Hospital are African-Americans.

HealthConnection - Through the Catholic Health System's Community Education Department, the system reached out to more than 4,900 people in the community with health education, screening and prevention programs.

Mission on the Move Mobile Health Van

Mission on the Move is a mobile health program operated jointly by CHS and FidelisCare New York. This program is dedicated to improving the health of the Western New York community by providing health education programs and screening services where people live, work and worship. In 2004, the van visited 151 sites and provided health screenings and education to more than 4,000 people. In an effort to bring services to neighborhoods in need, Mission on the Move collaborated with Target the Heart's Faith & Neighborhood Action Group, local YMCAs, Eckerd Drugs, Tops Markets, American Lung Association, American Heart Association and area Chambers of Commerce.

Project S.O.A.R - Project S.O.A.R (Success, Opportunity, Action, Retraining) is a unique, highly-successful community/work experience program to assist people who have had to utilize public assistance or who have become dislocated workers. Begun in 1991, this collaborative effort includes Kenmore Mercy Hospital, Kenmore -Tonawanda School District and the Erie County Department of Social Services, along with funding is from the US Department of Labor. Basic literacy skills, high school equivalency exams, case management, on-the-job training, childcare, transportation assistance, and career counseling are key elements of the program. Almost 500 students have enrolled in Project S.O.A.R in two areas: Patient Care Attendant, and Medical/Clerical Office Procedures. Of these students, almost 80% completed the program, and approximately 85% have gained employment. Kenmore Mercy Hospital, including our clinics and other off-sites locations, provides all on-the-job training and remains the largest employer of Project S.O.A.R graduates.

Rehabilitation Education & Prevention – Through its Rehabilitation Services division, the Catholic Health System provides presentations to community groups on specific health care topics that enhance awareness, prevention and promote early assessment.

Employee Outreach

HeartWalk 2004 – Supporting the American Heart Association, the Catholic Health System was an active participant in the 2004 American Heart Association's HeartWalk. CHS employees pledged more than \$58,000 for the event. CHS was also a major sponsor of the AHA HeartBall.

United Way Day of Caring – The Catholic Health System annually supports the United Way Day of Caring. A volunteer work force spends a day working to clean up and fix up businesses and homes in the City of Buffalo.

Christmas Family Giving Program – Associates across the Catholic Health System participate annually in holiday giving programs for the needy. Food, clothing and gifts are given to dozens of families across the community.

Clothing Drive - St. Joseph Hospital associates conduct an annual clothing drive to support the St. Vincent De Paul Society.

Good Neighbor Fund – The employees of St. Joseph Hospital contribute to community charities and outreach programs through the hospitals Good Neighbor Fund.

"Project Mustard Seed" – Based at Sisters Hospital, this program provides assistance for prescription costs, transportation and food to patients of the Sisters Family Health Center and perinatal care continuum.

Helping Hand Program – Many Mercy/OLV Associates have made payroll deductions to be put into the Helping Hand fund, which assists other employees/families in time of need. Additional opportunities are provided throughout the year for associates to extend their generosity and contribute to this fund. Needs of associates are many and varied, including the option of taking a loan and paying back via payroll deduction.

The Giving Place - A Sisters Hospital nurse volunteers to provide warm clothing to pregnant patients and their children. Sisters Hospital employees and physicians donate new and gently used clothing and furniture.

Spiritual Care

Clinical Pastoral Outreach – Catholic Health System has been accepting interns from around the world since 1996 who are interested in becoming chaplains or adding a pastoral component to their service as doctors, teachers, and psychologists. As part of the Clinical Pastoral Education Program, there has been an expansion of placements for interns functioning as chaplains into the community. Initially, interns spend clinical time in CHS hospitals, nursing homes, primary care centers, and homes for the aged as well as the homes of persons served by the CHS Home Care Division. Under the accreditation of the Catholic Health System, Clinical Pastoral Education Program and in collaboration with the Franciscan Friary, students now work in locales such as the St. Patrick's Friary, the Perry Street Projects, the Warde Center, the Seneca-Babcock area, St. Vincent's Dining Room, Benedict House and the prisons in Gowanda and Attica. This is a focused effort to educate chaplains for ministry in non-traditional settings while at the same time making a difference in the lives of people who are the fringe members of our society and the poor to whom the Catholic Health System has a special call to serve.

Quarterly Ecumenical Memorial Prayer Service – To provide further healing for the loss family members have experienced. Additional prayer services are held in response to patient and staff needs. Funerals, wakes and other bereavement services are an important part of the services provided by the Spiritual Care staff.

Spiritual Care Staff - Provide spiritual counseling and other support services for inpatients, outpatients, and nursing home residents of all faiths in addition to our staff and their families. The Spiritual Care Staff in the acute care facilities provide a variety of services ranging from sacramental care to providing community education. Chaplains counsel patients, families, and staff and provide additional services as needed. Chaplains participate in interdenominational associations in their respective areas. Chaplains are

certified professional trained in spiritual direction, pastoral counseling and medical ethics, committed to enhancing the holistic care patients and residents receive throughout the Catholic Health System.

Community Feedback

The Catholic Health System remains in constant touch with the communities it serves through formal and informal information gathering to help measure performance, community need and opportunities for improvement.

Health Care Needs Assessment Survey – Through CHS primary care centers, hospital admission departments and outpatient ancillary sites, a survey was distributed to individuals to gain an understanding about their health care needs and how well their needs were being met. Questions were asked regarding their needs in primary care, hospital services, home care, long term care, and community education. Over 340 surveys were completed providing feedback about services they had used and whether they felt their needs were met.

Home Care Satisfaction Survey Process – Just as our hospitals and nursing homes conduct satisfaction surveys of their population, on a quarterly basis, our home care agency surveys its home care clients using the NRC product. This process allows us to continually modify the service we provide to our home care clients.

Inpatient Satisfaction Survey Process – Through a cooperative effort with the Buffalo Niagara Health Quality Coalition, Catholic Health System hospitals continue to participate in a regional patient satisfaction survey. Participation in this program is voluntary and paid for by the hospitals. Surveying takes place twice a year. It holds up hospital performance in patient experiences to national benchmarks. The program opens up the patient experience to public viewing through extensive publication of results in local media and offers opportunities for the hospitals to further improve performance. In the latest survey of 14 Western New York hospitals, three earned 3-star ratings from surgical patients. Two of those hospitals, Sisters of Charity and Kenmore Mercy hospitals, are from the Catholic Health System.

Improved from Prior Cycle

Worse than Prior Cycle

Star ratings are based on comparisons to national scores

Patients in hospitals with one star (\star) had experiences that were statistically significantly worse than national averages Patients in hospitals with two stars $(\star\star)$ had experiences that were not statistically significantly different than national averages Patients in hospitals with three stars $(\star\star\star)$ had experiences that were statistically significantly better than national averages

Nursing Home Family/Resident Satisfaction Survey Process – Just as our hospitals conduct satisfaction surveys of their patient population, Catholic Health System nursing homes also conduct satisfaction surveys of their population on an semi-annual basis. Survey responses are compared to other nursing homes within Catholic Health East for eastern state benchmarks.

Partners In Rehab & AthletiCare Patient Satisfaction — As part of the rehabilitation division's mission of providing quality and evidence-based practices, we recognize that only through surveying our patient population are we able to identify those areas that we could improve our service. All of the discharged patients in our two Medical Rehabilitation Units (MRU), five subacute facilities and nine outpatient facilities are surveyed monthly. Our guiding questions are (1) Overall Satisfaction where the response of excellent and very good are only used in the tally and (2) Would you definitely recommend our service?

Physician Satisfaction Survey Process – CHS began a process of surveying its medical staff on a regular, frequent basis in 2002. A web-enabled survey product was purchased which allows for the timely development of survey tools to allow physicians easy access to voice their opinion. CHS physicians were surveyed in regards to their information technology capabilities and needs. Their input is being utilized to plan the work that is necessary to ensure the System and its physicians have ready access to patient information electronically so better health care decisions can be made on a timely basis.

Focus Groups – The Catholic Health System conducts focus groups as needed when developing and evaluating new and existing programs and services. For instance, focus groups were conducted with women in the community to gain their input in the development of specialty services for women at one of our primary care centers. Their input was invaluable in directing us to offer the right kind of services to meet their unique needs.

Strategic Planning for the Catholic Health System

The Catholic Health System views the strategic planning process as a journey without a finish and that plans and strategies to provide services to the community first and foremost must continually adapt to the fluidity of the current and challenging health care environment.

In the planning of health care services under a seriously strained environment, the Catholic Health System undertook three significant steps in long range planning for CHS and its facilities and services in 2004. First, a detailed medical staff development plan was created looking at our hospital's medical staff needs over the next five years to ensure we have the medical professionals necessary to continue to provide high quality care to the communities we serve. Our planning process included one-on-one physician interviews with key medical staff throughout our System, statistical physician use rate analysis to understand the needs of the region from a modeling perspective, as well as a needs assessment analysis of daily physician needs within our hospital walls.

Second, five-year strategic plans were created for CHS as well as the acute care facilities, home care division, long-term care division and our rehabilitation, laboratory and cardiovascular service lines. These five-year plans involved extensive information gathering and involvement of hundreds of stakeholders, including meetings and retreats with Board members, physicians, senior administration and management. This planning process included extensive market analysis, examination of community needs, the ability of CHS to match its resources with those needs, reaffirmation of the system's mission and vision and identification of how to reach that vision through strategic initiatives that were consistent with the needs of our customers. From an approval process, the five year plans as well as annual plans were approved by the Catholic Health System Board of Directors as well as the entity Boards (Acute, Home Care, and Long Term Care) in December of 2004.

Finally but not the least important, CHS entered into a strategic alliance with Siemens Medical Solutions in 2004. This alliance will allow the Catholic Health System and its entities to shape healthcare in the Buffalo region and help improve the quality and efficiency of patient care. The first steps involve bringing our acute care facilities onto a common, integrated clinical and financial information systems platform. With one common information system, patient information will be available to our medical professionals from any workstation within the Catholic Health System, the home or office computer.

	Source. Claritas Demographics based on 2000 Census									

- Although the total Erie County population is projected to decrease by 1.5% (14,058) from 2004 to 2009, rates of decline and growth vary among age cohorts.
- The decrease in population of children under 18 continues to accelerate. The projections show a decrease of 4 3% (-9,490)
- The age cohort 18-44 projects the largest decrease of 4 7% (-15,956).
- In Erie County, the population age cohort 45-64 continues to show projected growth of 3 8% (8,820).
- Although the charts above show a projected increase in the 65+ population of 1.7% (2,568), there is a 1.1% (-647) projected decrease in the 75-84 age cohort.
- It is also important to note that the female population of childbearing age (18-44 years) continues to decline by 5.4% (-9,162) in Erie County. This continues to feed the population decline in the younger population.

- While the total Western New York (WNY) population is projected to decline by 1.6% (-25,514) from 2004 to 2009, rates of decline and growth vary among age cohorts
- The above charts continue to show a decline in the child population <18 yrs by 4.4% (-16,166) and the younger working individuals 18-44 years by 4.7% (-27,248).
- The age cohort 45 to 64 shows a projected growth of 3.6% (14,106)
- The age cohort 65 and older shows a projected increase of 1 6% (3,794). Likewise, the 65-74 age cohort shows a projected increase of 1 3%, and the 85+ age cohort a projected increase of 10.1% (3,523).
- The age cohort 75-84 shows a projected decline of 1 3% (-1,227)
- Like Erie County, Western New York shows a decline in women of childbearing age (18-44 years) of 5 5% (-15,539).
- The population growth trends both in Erie County and in Western New York support the statement that the WNY region continues to age

Inpatient Services

Source. Medstat Market Expert. Figures exclude normal newborns

Emergency Department Visits

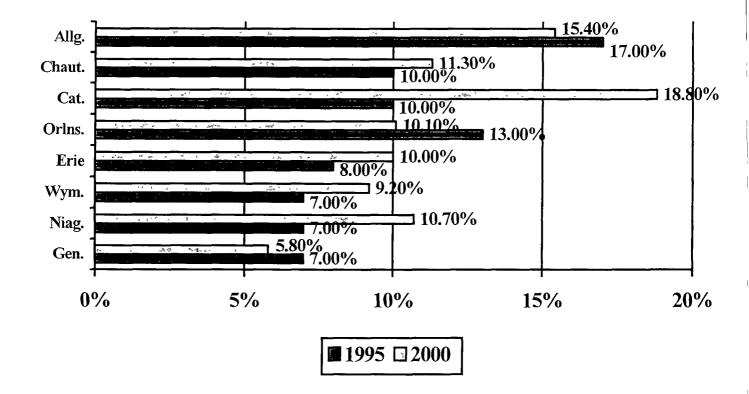

- Inpatient discharges were dropping from 1999-2002 and began to rise again in the WNY area as noted by the 0 4% increase in inpatient discharges from 2002-2003
- A decrease in average length of stay of 0 5 days occurred between 1999-2003, however it has remained stable at 5.8 days with no change from 2002-2003.
- ED utilization rates per 100,000 population is also seeing an increase across the nation, mid-Atlantic region and in NYS

Medicaid / Uninsured Statistics

• The number of individuals eligible for Medicaid increased by 22.6% (31,233) from 2000-2004

WNY Percentage Uninsured by County

Source: HANYS' & WNY Risk Assessment

- In 2000, it was estimated that there were approximately 200,000 uninsured people in Western New York; Approximately, 96,000 (10%) of Erie County's population were also uninsured
- From 1995-2000, the number of uninsured increased in Niagara County (3.7%); Wyoming County (2.2%); Erie County (2.0%), Cattaraugas County (8.8%), and Chautauqua County (1.3%). The number of uninsured decreased in Genesee County (2.8%); Orleans County (3.0%); and Allegheny County (1.6%).
- In 2000, the percent of uninsured in Erie County ranked higher than Genesee, Niagara, and Wyoming Counties but lower than the Southern Tier region of Allegheny, Cattaraugus and Chautauqua Counties.
- The trend in New York State is that the number of uninsured individuals is rising. 17 6% of the population (16.7 million) lacked health insurance in 2003, an increase from 15 2 million in 2000.
- The trend in the United States is that the number of uninsured individuals is rising Nearly 45 million Americans under the age of 65 lacked health insurance coverage in 2003, an increase of more than one million people in a single year and over five million people since 2000. Medicare covers virtually all those 65 and older, while Medicaid and the State Children's Health Insurance Program help provide coverage for low-income people. However, there remains a gap in coverage; 18% of the population under age 65 lacks health insurance Employer-sponsored health insurance has decreased from covering 66% of the nonelderly in 2000 to 62% in 2003 (Source: The Kaiser Commission on Medicaid and the Uninsured, Key Facts about Americans Without Health Insurance, November 2004)

Source NYS Department of Health County Health Indicator Profiles, Healthy People 2010, and CDC's National Vital Statistics
Report

The WNY region continues to work with the Department of Health and other organizations to improve the overall health of the region's communities. Hospitals as part of those communities continue to concentrate on improving quality and pathways in treating patient disease through clinical treatment and research. In addition, much effort has been put into maternal and child health. There are many initiatives throughout the state to increase education for mothers, and provide increased and better prenatal care to help assure the healthy birth of babies.

- Diseases of the Heart remains at the top of the list as the leading cause of death in New York State and in Erie County. New York State has experienced a decrease in the death rate from 1999-2001, however, the death rate in Erie County has slightly increased during this same time period. Erie County continues to have a higher death rate from Diseases of the Heart than both New York State (295.3) and the US (245.8).
- Cerebrovascular disease has showed no improvement in Erie County and has almost twice the mortality rate as New York State.
- At the time of this writing, 2001 cancer mortality rates were not available. However, from 1999-2000, Erie County experienced an increase in cancer related deaths, while both New York State and US rates have decreased. Erie County shows a higher cancer mortality rate than either NYS or the nation
- Infant Mortality rates show improvement in New York State down to 6 0 deaths per 1,000 births, while in Erie County the figure is 8 5 deaths per 1,000 births
- Low birth weight rates have improved and now mirror New York State rates (7 8%), but continue to lag slightly behind the national rate of 7.7%
